\* This is the recommended minimum amount of hay to be fed. If feeding more hay, reduce the feeding rate of Strategy® Healthy Edge® horse feed by 1.0 lb for every additional 2.0 lbs of hay fed.

\*\* Do not feed less than 0.3 lbs per 100 lbs of body weight per day. If your horse gains too much weight at that minimum feeding rate, then you should replace Strategy® Healthy Edge® horse feed with Purina® Enrich Plus® ration balancing feed.

#### If changing to Purina® Strategy® Healthy Edge® horse feed:

1. Make the feed change gradually over a period of 7 to 10 days.
2. Mix the new feed with the old, gradually increasing the amount of the new feed while decreasing an equal amount of the old.
3. Changes in the rate of feeding should not exceed 1.0 lb per day for each horse.
